Education

Afebabalola University, Ekiti, Nigeria	Aug 2017- Aug 2021

Bachelor of Engineering, Computer Engineering

SKILLS

Technical Skills: Data analysis, Front-end, internet security, data visualization.
Programming Skills: HTML, CSS, JavaScript, Python, React, Microsoft Power BI
Language: English, German(A1)

PROFFESSIONAL EXPERIENCE

Software Engineer   Mar 2022- Sept 2023
Galaxy Backbone   *Abuja, Nigeria*

- Ran website scanning through acunetix to ensure their privacy and safety resulting in client's satisfaction rate.
- Configured multiple business network in accordance with IT policies & guidelines, reducing security threat levels by 75%.
- Monitored, managed, and administered routers, switches and servers for small-Medium Enterprise customers and Federal Ministries to minimize downtime.
- Monitored the acunetix virus reports to determine when to update the virus protection system.

Software Engineer Intern   Mar 2020 - Dec 2020
NIIT   *Port Harcourt, Nigeria*

- Evaluated and cleaned intricate datasets to identify trends & insights, resulting in a 10% increase in customer retention rate.
- Synthesized major findings through data mining methods to gain acute understanding of customer base, resulting in boost of annual revenues.
- Dsa background
- Use of html, CSS and JavaScript to Deliver Figma UI designs using JavaScript.
- Use of JavaScript frame works to create responsive websites for client use.
- Use of machine learning algorithms to gain major findings and get acute understanding of the datasets.

VOLUNTEER EXPERIENCE

Data analysis and python Tutor   *Nov 2020 - current*

- Helped beginners get started best suitable career parts on the best programming language to use.
- Mentored students on applying engineering concepts to coding best practices, completing projects on time with up to 95% success rate.
- Trained new programming students on Front-end dev and python, covering technical and soft skills.
